Hostels are genuinely a home away from home.

Providing a comfortable and safe environment to its students is the University's top most priority.

University promotes celebration of several festivals and sports and cultural activities that encourage young minds to engage in an all round development

INDUSTRY VISIT

HEAR OUT FROM US

Priya Kumari

I am the first year student of MBA - Aviation. We have faculties here who are expert in their areas. Library access is there we can go and issue the books. Time to time expert talks and seminars which are delivered by industry's expert are conducted. Now, we can have a certification from Galileo which is a preferable thing in aviation industries when talking about opportunities. We are being offered for a 6 months internship along with the placement support by the institute in our final year either in private airlines or in government organisation like AAI.

Rachit Mishra

I feel proud to be a part of the ILAM Family. They genuinely take care of their students and their future endeavor to build a more desirable future. I found gatherum of experiences and window of opportunities to pursue as well as expand my horizon, honestly thought-provoking experience and a very effectual investment for professional growth.
